Sciences, Natalia Jarrin, Ecuador, QUI

Sept 2016 – July 2019.

ACADEMIC PROJECTS

[Personal CRUD Portfolio](#) - Centennial College – Toronto, ON.

- Developed a portfolio page implementing the basic CRUD operations integrated with MongoDB and implemented HTML, CSS, and JavaScript to style the different views. Successfully built, ran, and deployed the website on Render cloud platform.

[Weather Application](#) - Centennial College – Toronto, ON.

- Designed and developed a web application that retrieves the weather information from the user when they input the name of any city.

[Restaurant Bill Calculator](#) - Centennial College – Toronto, ON.

- WPF application built on C#, through this restaurant bill calculator, customers can add, remove, and submit their orders and the application will calculate and retrieve the total.

[SearchBar](#) - Edureka

- Search bar built with react.js and css for its styling. Through an API the search bar will retrieve the data that the customer inputs on the field.

WORK EXPERIENCE

Store Clerk - Costco Wholesale – Toronto, ON. Current

- Assist elderly members in shopping, lifting, using self-checkout, or carrying their products throughout the store.
- Built strong member-employee relationships by providing issue resolution and information through person interactions.
- Boosted efficiency by 10% via multitasking, streamlining operations and raising members satisfaction by 20% through price verification and shelves sorting.
